

KECD 2210 - Microeconomics 1: Consumers & Markets

Type d'enseignement : Lecture and tutorials

Semester : Autumn 2017-2018

Number of hours : 48

Language of tuition : English

Pre-requisite

Undergraduate intermediate microeconomics is a pre-requisite. Students should also be comfortable with real analysis, linear algebra and multivariable calculus.

Course Description

The course provides an introduction to microeconomic theory for graduate students. Some parts are material that all graduate students in economics should know. Others are used to introduce methodologies. Topics include consumer and producer theory, markets and competition, general equilibrium, comparative statics tools and their application to price theory.
