

Context: Dual degree students may take the opportunity of their first year at PSIA to also meet SIPA requirements. Please find below a list of SIPA requirements that may be taken and already met whilst at PSIA. <u>Please note that this list is for information only, it does not constitute a cross-validation chart.</u> Each university maintains full authority over their own degree requirements and credit allowance. In particular, students must always double check with their academic advisor at SIPA whether each course they have taken at SIPA may be, or not, credited for SIPA requirements.					
	Guidelines	SIPA Core-MIA	SIPA Courses	PSIA Equivalent Courses	
				Fall semester	Spring semester
