Welcome guide for PhD candidates at CRIS

2026-2027

The team at CRIS is very pleased to welcome you and is available to offer practical help throughout your PhD studies

Your contacts

- ◊ Carlo Barone, Head of CRIS
- ◊ Linda Amrani, General Secretary
- ◊ Zachary Van Winkle, Associate Professor, in charge of doctoral studies at CRIS
- ◊ Marta de la Torre Carreira & Camille Voisin, representatives on the CRIS Laboratory Council

Physical address
CRIS – 1, place Saint Thomas d'Aquin, 75007 Paris
Mailing address
FNSP / CRIS - 27 rue St Guillaume, 75337 Paris cedex 07

Presentation of the CRIS Research Centre

The Center for Research on social InequalitieS (CRIS) is a research unit at Sciences Po in Paris and of the CNRS - InSHS (Joint Research Unit UMR 7049). Its members are attached to the Department of Sociology and to the Department of Economics at Sciences Po for their teaching.
They may be affiliated with other research centers or programs such as LIEPP, Presage, MiDi, AxPo, Aire, or Cities are back in Town.
The CRIS (formely the "Sociological Observatory of Social Change – OSC" until 2022) has been developing cutting-edge research on social stratification and inequalities since 1988. Its research program pursues 3 main objectives:

- Measure and compare the evolution of social inequalities in France and in contemporary societies
- Analyze the mechanisms of social inequalities at the micro- and macro-levels
- Contribute to the analysis of public policies.

CRIS researchers are internationally recognized for their expertise in the study of social inequalities. Their work covers a wide variety of research fields: gender, origin, social environment, education, urban segregation, family, the role of the state and its policies, social habits, mobility and migration, cultural practices, digital uses, the environment, crime and policing, socio-economic segregation, and the labor market.

Being anchored in empirical sociology, interdisciplinary openness, theoretical and methodological rigor, and respect for the autonomy of researchers constitute the pillars of CRIS' research approach. The results of CRIS research are published in leading peer-reviewed journals in the discipline, both in France and internationally. CRIS members present their research at international conferences and regularly contribute to fueling public debate.

As a host research laboratory for Sciences Po's doctoral program in sociology, CRIS is distinguished by its commitment to high-quality doctoral training that has an international and interdisciplinary approach, focusing on the latest theoretical and methodological developments related to the study of social inequalities.
The working language at CRIS is English for most scientific events and meetings.

Carlo Barone is the director of the Center since September 1st, 2024.

Permanent faculty

Martin Aranguren, Director of Research CNRS
Carlo Barone, University Professor. Head of CRIS
Bastian Betthäuser, Associate Professor Sciences Po
Mélusine Boon-Falleur, Assistant Professor Sciences Po
Magda Boutros, Assistant Professor Sciences Po
Lucas Chancel, Associate Professor Sciences Po
Marta Dominguez Folgueras, Associate Professor Sciences Po
Emanuele Ferragina, Full Professor Sciences Po
Olivier Godechot, Director of Research CNRS. Head of the AxPo Observatory of Market Society Polarization
Angela Greulich, University Professor
Sukriti Isssar, Associate Professor Sciences Po
Marie Labussière, Assistant Professor Sciences Po
Laurent Lesnard, Director of Research CNRS
Marco Oberti, University Professor
Lidia Panico, University Professor. Head of Doctoral Studies in Sociology
Ettore Recchi, University Professor
Yann Renisio, Associate scientist CNRS
Anne Revillard, Full Professor Sciences Po
Mirna Safi, Full Professor Sciences Po
Jen Schradie, Associate Professor Sciences Po
Ankit Sikarwar, Assistant Professor Sciences Po
Zachary Van Winkle, Sciences Po Associate Professor

Emeritus professors

Alain Chenu, Emeritus University Professor
Marie Duru-Bellat, Emeritus University Professor
Hugues Lagrange, Emeritus Director of Research CNRS
Agnès van Zanten, Director of Research CNRS

Direction and research support staff

Carlo Barone, Head of CRIS
Linda Amrani, General Secretary
Bernard Corminboeuf (CNRS), Communication Officer. Scientific and technical information
Vanina Lancelle (CNRS), Finance Assistant
Sylvie Lesur, Executive Assistant
Manon Pradère (CNRS), Data management & survey analysis engineer
Yannick Savina (CNRS), Cartographic and statistics engineer

Safety prevention & EDI (equality, diversity, inclusion) correspondent: Linda Amrani
Ecological transition correspondent & Open Science Archive (HAL): Bernard Corminboeuf

Doctoral researchers 2026-2027

Abel Aussant
L'impact des pratiques numériques sur l'accès à la culture des jeunes en France
(Dir. Philippe Coulangeon, CRIS & Samuel Coavoux, GENES-CREST)

Florian Andersen
Understanding Labor Flow Networks and Wage Inequality: an Analysis of Career Trajectories and Labor Market Dynamics (Dir. Olivier Godechot)

Niklas Ayris
A Subjective-Objective Mismatch? The Social Mobility of Immigrants in France (Dir. Ettore Recchi)

Tom Azoulay
La mobilité entre établissements des enseignants et enseignantes au cours de leur carrière
(Dir. Agnès van Zanten)

Jeanne Belly Le Guilloux
Vulnerabilities to widowhood : Growing old with an ill spouse; growing old alone (Dir. Zachary Van Winkle)

Luka Boeskens
Mediators and moderators of the COVID-19 pandemic's impact on children's educational development
(Dir. Lidia Panico)

Charlotte Corchete
Perceptions des recruteurs et des enseignants sur l'évaluation des candidats et des élèves : la place des compétences (Dir. Mirna Safi, CRIS & Patrick Simon, INED)

Marta de la Torre Carreira
La scolarité au sein des adelphies (titre provisoire) (Dir. Agnès van Zanten)

Ida Gaede
Migrant Mothers: the Role of Citizenship and Migration in Post-Birth Employment Trajectories in Germany and France (Dir. Marta Dominguez-Folgueras)

Ramiro Galdeano Solans
Ce que les politiques d'habitat font aux exilés : parcours résidentiels et insertion urbaine des nouveaux migrants exilés en Île-de-France et à la Communauté de Madrid (Dir. Sukriti Issar)

Emilie Grisez
La socialisation des enfants dans les écoles primaires catholiques en France
(Dir. Agnès van Zanten, Lidia Panico)

Gaia Grassi
Educational Trajectories, Attitudes and School-to-Work Transitions: Understanding the Consequences of the COVID-19 Pandemic for Education Inequalities (Dir. Bastian Betthäuser)

Xavier Haendler
The Extractive Foundations of the Welfare State: A Comparison across Europe and Latin America
(Dir. Emanuele Ferragina)

Cao Minh Ho
Les bons élèves de l'immigration ? Les stéréotypes, ressource et frein dans les trajectoires des descendants d'immigrés asiatiques (Co-dir. Mirna Safi, CRIS & Mathieu Ichou, INED)

Nadeen Jumai'an
Workplace Power and Political Inequalities: Precarious Employment, Class and Political Outcomes in France and the United States (Dir. Jen Schradie)

Mattéo Lanoë
Quand le virus se grippe : parcours de vie, dispositions, et contrôle des symptômes d'un syndrome post-infectieux en France (Dir. Anne Revillard)

Elder Arnulfo Lara Castañeda
A Social Demography of the Risk to Widowhood across Ageing Societies (Dir. Zachary Van Winkle)

Lise Lecuyer
Dynamiques urbaines et scolaires à Bagneux : une gentrification progressive sans mixité scolaire ?
(Dir. Marco Oberti)

Jeong-A-Lee
Fertility intentions and behaviours in the context of changing ideals in South Korea and East Asia (Dir. Angela Greulich)

Clara Le Gallic-Ach
Déclarer des expériences de violence de genre en France depuis #Metoo (Dir. M. Dominguez-Folgueras)

Juliette Michelet
Socioeconomic background, student motivations and track choice in France: evidence from a mentorship program among lower secondary students (Dir. Carlo Barone & Coralie Chevallier, ENS)

Mathieu Naour
Labor market integration of refugees : an analysis of French policies (Dir. Bastian Betthäuser)

Sophia Noel
Widowhood and Vulnerability in the Face of Climate Change (Dir. Zachary Van Winkle)

Laura Pacin
Power and Prejudice: From Hiring Discrimination to Career Inequality (Dir. Pierre Cahuc & Mirna Safi)

Manon Pothet
Mixité sociale dans la ville et à l'école. Ségrégations territoriales et inégalités scolaires à Paris (Dir. Agnès van Zanten)

David Potrel
Teaching Practices as Mediators of Early Childhood Inequality (Dir. Lidia Panico & Mathieu Ichou, INED)

Eulalie Saïsset
Prévenir les conflits d'usage des sols inhérents à la déclinaison d'objectifs nationaux à l'échelle locale (Dir. Lucas Chancel, CRIS & Harold Levrel, CIRED)

Alex Sheridan
From Parenting to Gender Gaps in Child Development: Comparative Evidence for France and the UK (Dir. Lidia Panico)

Camille Voisin
Welfare Attitudes and Common Sense through Crises: The Sociological Basis of the Political Economy (Dir. Carlo Barone)

Postdoctoral Researchers

Lucile Broséus
Project *Trajectories of Children's Exposure to Air Pollution in France (TraCE)*, coordinated by Lidia Panico and Johanna Lepeule (INSERM).

Bartholomew Konechni
ERC-funded projecty *LEARN - Understanding the Consequences of Health Crises for Education: Learning from the COVID-19 Pandemic,* directed by Bastian Betthäuser.

Chloé Lavest
ERC-funded project *DISEQUAL - The Discrimination-Inequality Cycle: Bridging Unequal Treatment and Unequal Outcomes across Countries, Regions and Workplaces* led by Mirna Safi.

Ritu Rani
Trajectories of Children's Exposure to Air Pollution in France project (TIERED-funded project coordinated by Lidia Panico and Louise Caron, INED).

Vanessa Wittemann
ERC-funded project *LEARN - Understanding the Consequences of Health Crises for Education: Learning from the COVID-19 Pandemic,* directed by Bastian Betthäuser.

Yuhan Zheng
ERC- funded project *DISEQUAL - The Discrimination-Inequality Cycle: Bridging Unequal Treatment and Unequal Outcomes across Countries, Regions and Workplaces,* lead by Mirna Safi.

Your integration at CRIS

CRIS doctoral candidates are monitored as follows:

1. CRIS commitments

CRIS doctoral candidates are expected to actively participate in the academic life of the centre:

◊ They are invited to all scientific events, while they also contribute to the elaboration of the CRIS annual seminar program;

◊ They receive all relevant CRIS information and announcements;

◊ They are involved in collective research projects, with a view to their involvement in the life of the Center and their professionalization;

◊ They occupy a shared office space within the CRIS location in Sciences Po's main campus building at 1 Place Saint Thomas d'Aquin, wing B, 2nd floor), as well as logistical facilities (photocopier/scanner/printer, business cards, letterhead, etc.);

◊ CRIS supports as much as possible its PhD student efforts to execute and promote their research work;

◊ CRIS involves doctoral candidates in its range of activities, giving them the opportunity to acquire broad skills that will enable them to integrate more effectively into their careers, both inside and outside academia: training, teaching and/or tutoring, participation in conferences, promotion of their research and publishing personal pages on the Center's website.

2. Doctoral students' commitments

Doctoral students must respect the French ministerial obligation to complete their thesis in 6 years.

They are expected to attend and participate in the weekly CRIS seminar and the monthly doctoral workshop, General Assemblies, as well as all of the Center's academic events.

Note: Attendance at the weekly seminar is not optional for PhD candidates, but is required. If you need to miss a seminar, please inform your PhD supervisor as well as research coordinator Allison Rovny ahead of time.

In addition, CRIS PhD candidates agree to present their research as part of the Centre's activities (in the doctoral workshop and/or weekly seminar) and to keep the research support team informed of their activities (teaching, travel, fieldwork, presentation of their work at conferences, etc.). Like all researchers, they are bound to respect the rules of research ethics and academic integrity.

3. Doctoral supervisor

At least one permanent member of the CRIS research team, assisted by the research coordinator, coordinates the supervision of doctoral candidates.

4. CRIS funding for doctoral candidates

CRIS devotes part of its budget to funding which is specifically reserved for doctoral candidates.
These funds are subsidiary to those of Sciences Po's School of Research, which must be requested before applying to the Center. The members of the Laboratory Council decide on the requests.

All research-related travel, whether financed or not, must be preceded by a request for an "ordre de mission" and signed by the doctoral candidate, thesis Director and CRIS Director (or General Secretary):
https://intranet.sciencespo.fr/bienvenue/sites/intranet.sciencespo.fr.bienvenue/files/DRH_demande_ordre_mission.pdf

Requests for funding should be submitted via this google form :
https://docs.google.com/forms/d/e/1FAIpQLScGgBnpCts9t8jecRZ1IY5MSclRfEhiCoL-tW9oDtHzeUaX4A/viewform

5. Representation of doctoral candidates

Doctoral candidates elect the persons (titular and deputy) they wish to propose to the CRIS Director to represent them on the Laboratory Council, by secret ballot.
CRIS's rules and regulations can be consulted here:
https://drive.google.com/drive/folders/1g-eEJ4UIBF3mGzCp-Si9U1T3mtHutFa8

6. Individual doctoral candidate monitoring committee

The *"Comité de suivi individual de thèse"* is governed by a decision of the ED234 Board (March 23, 2022). This subject is discussed regularly at the Research School's Executive Board, which is considering changes (within the framework defined by the French Ministry of Higher Education and Research).

While CRIS's role here is to help ensure that these individual monitoring committees are organized, it is up to the doctoral candidate and her/his PhD supervisor to decide on the committee composition. It is recommended to include at least one committee member from outside CRIS. The PhD thesis supervisor is not a member of the monitoring committee.

In the event of difficulty, the doctoral candidate is invited not only to discuss the matter at meetings with his or her monitoring committee (who can be contacted at any time during the year), but also to contact the CRIS direction, which will initiate mediation (in conjunction with the EDR, the EDR mediator, the doctoral candidate faculty advisor and, if necessary, the academic department). The multiplicity of interlocutors enables us to widen the scope of discussion on sensitive subjects.

We follow the guidelines of the School of Research. The reference documents are
available here: https://drive.google.com/drive/folders/1jIhE8xSd1XVY_tuEbjaUQGUr6KGWu6XZ

7. Sharing information

The list of doctoral candidates is made available to doctoral candidate representatives in order to encourage circulation and sharing of information. Furthermore, the Secretary General of the Center supports the doctoral candidates in their exchanges with the various interlocutors of the institution (the department, research school, academic center, etc.)

8. Support for the professional integration of doctoral candidates

CRIS strives to promote the academic and non-academic professional integration of doctoral candidates by the means at its disposal. Our goal is to prepare our doctoral candidates for the international academic market while continuing to guarantee them very good integration in France. The doctoral training role at CRIS is thus distinguished by the weight it gives to internationalization: training in writing research articles and giving paper presentations in English, setting up professionalization workshops, sharing of the international CRIS network (by facilitating participation in international conferences, workshops and events to encourage their networking with international researchers), inter-collaborations, participation in international research projects and interdisciplinary collaborations, thus making it possible to strengthen skills and international visibility, along with its policy of inviting junior and senior visiting scholars (sharing of experiences, academic exchanges), communication about international opportunities and financing of research trips and much more. To encourage international publication (with the possibility of financing linguistic editing).

The CRIS supports doctoral candidates as much as possible after their PhD thesis defense by supporting their efforts to publish their doctoral work and bringing all the information available to them. Recent CRIS PhD graduates also have associated researcher status for two years following the thesis defense.

9. Procedure to combat sexist and sexual violence

All doctoral candidates are invited to consult the Sciences Po intranet to be informed of the approach to combating gender-based and sexual violence within the institution:
https://intranet.sciencespo.fr/bienvenue/content/lutter-contre-les-violences-sexistes-et-sexuelles

Throughout your PhD thesis

Sciences Po's School of Research oversees the administrative follow-up of PhD candidates, from the recruitment stage to the PhD thesis defense, in conjunction with the host laboratory, CRIS.

Two documents are sent for signature as soon as PhD candidates register for the doctoral program:
- **The Doctoral Charter**, which sets out the general framework within which doctoral thesis research takes place at Sciences Po, in accordance with the governmental decree of May 25, 2016,
- **The Training Agreement**, which outlines the support the doctoral candidate will receive throughout her/his training.
Doctoral candidates must give a copy of these two documents to the host research center.

Visitings

CRIS regularly welcomes visiting junior and senior researchers from a variety of universities who contribute to the internationalization and interdisciplinarity of the research center. CRIS PhD students have the enriching opportunity to meet with the visiting researchers during their stay.
Visiting researchers have access to a shared workspace in Wing A of the building.

Communication and Promotion of Research

Signature
Publications (articles, reports, presentations, etc.) by CRIS members must indicate their affiliation with the Center and the affiliation to the supervisory bodies, in accordance with the current Signature Charter: https://www.sciencespo.fr/recherche/en/research-support/sciences-po-signature-charter/
Example: First name Surname, Sciences Po, Centre for Research on Social Inequalities (CRIS), CNRS, Paris, France.

Communication Chanels

- Our website: https://www.sciencespo.fr/cris/en/. All information for the CRIS website should be sent to the communications manager bernard.corminboeuf@sciencespo.fr. It is important to send him, if possible, in advance, all information relating to your research activities (communications, publications, working papers, articles, media coverage, etc.).
- To circulate information by e-mail, you can use a number of mailing lists, in particular the general email list of CRIS members (labosc-scpolst@sciencespo.fr).
- Several times a year, you'll receive the ***CRIS Express*** newsletter, which lists all the center's scientific activities. You will also regularly receive seminar announcements.
- Présence on social networks: follow our ***Bluesky*** (https://bsky.app/profile/cris-sciencespo.bsky.social) and ***LinkedIn*** https://fr.linkedin.com/showcase/centre-for-research-on-social-inequalities-cris/ (with Newsletters CRIS Express & Inequalities in Education).
- Sciences Po is one of the institutions funding The Conversation and, as such, can offer its members the opportunity to reach a broad audience through popular science articles that can be freely republished by the media.

Open Science - FAIR Practices

Findable Accessible Interoperable Reusable

HAL Sciences Po open archives
It is compulsory for all members including doctoral candidates to create a record of any publication on the HAL Sciences Po portal. This record is used to measure the institution's academic production, and to promote it within the community. The weekly newsletter emails from Research at Sciences Po, for example, are sourced by new HAL records. Our website retrieves automatically HAL records to fill the "Publications" section on the CRIS members' pages.
If you've never used HAL before, you'll need to create an account with an id-hal (identifier).
Please use this link only to access: https://sciencespo.hal.science/
Afterwards, why not create an ORCID ID and link it to Hal? https://orcid.org/
For further information: consult with CRIS communications Head Bernard Corminboeuf.

Research data
The dissemination of research data and processes has become a key issue in the social sciences. Beyond attaching appendices to journal articles, the practice of publishing code on a GIT or uploading of documented data into a repository is becoming commonplace, with the aim of replicability and re-use.
The CNRS and Sciences Po offer assistance and powerful tools. Huma-Num Reseach Infrastructure
Sciences Po's research data warehouse : https://data.sciencespo.fr/
Need access to a scalable cloud computing and storage platform? Discover ***Nuvolos*** https://nuvolos.com/. Please contact Yannick Savina for information on eligibility requirements and account activation.
The Sciences Po Library offers also a comprehensive Libguide to data: https://sciencespo.libguides.com/donnees-de-la-recherche/In-English.

Pratical information

◊ **Workstations**
16 open-space work stations equipped with fixed computers are available to doctoral candidates. Laptops can be borrowed if you need to travel or if you have no personal equipment.
Contact: Vanina Lancelle.

◊ **Meeting room**
Room C210 (Wing C of the building) can be reserved for any work meeting, preparation for an interview, meeting with a colleague, etc. Consult the Google calendar to check availability. Contacts for bookings: Sylvie Lesur or Vanina Lancelle. A soundproof meeting pod is available in room A201 for phone and video calls.

◊ **All events are announced on the CRIS shared Google calendar** (date, time, location):
https://calendar.google.com/calendar/u/0?cid=c3lsdmllLmxlc3VyQHNjaWVuY2VzcG8uZnI

◊ **Shared CRIS folder**
Resources and materials such as travel-mission forms (necessary before completing any fieldwork or travel related to your PhD research), funding applications, internal regulations, and the minutes of the Laboratory Council meetings are available on the Google Drive: https://drive.google.com/drive/folders/0AN1ZtGKlctHiUk9PVA

◊ **Library**
Doctoral candidates borrowing books from the Sciences Po library can use the online catalogue and benefit from the «researcher shuttle» service for rapid delivery of books directly to the reception desk at 1 place Saint-Thomas d'Aquin (identical return procedure).
https://www.sciencespo.fr/bibliotheque/en/services/researchers-phd-students/delivery/

◊ **Access to buildings and security at the 1 Saint-Thomas d'Aquin campus**
Doctoral candidates have an ID badge with a photo that allows them to access the site of Sciences Po's main campus at 1 Place Saint-Thomas-d'Aquin from Monday to Friday from 7:45 a.m. to 9 p.m. (11 p.m. for staff), during the course period, except on public holidays and days of institutional closure. This badge is strictly personal. It permits access to numerous services, including access to all buildings and printing documents on campus printers. Sciences Po security services ask:
- To promptly report the loss of this badge to the Secretary General of the Center;
- Never allow unknown people, without a badge, into the building.
Sciences Po security center: 01 45 49 55 55
Infirmary: 01 45 49 59 99 / 01 45 49 51 76 (13U ground-floor courtyard).

◊ **Printing and supplies**
A printer, scanner and copier is installed in the CRIS water fountain area, wing A. The printer/scanner/copier functions from all Sciences Po work stations (automatically configured for computers belonging to Sciences Po) or via the printing server website for personal computers: https://imprimer.sciencespo.fr.
A color printer is also available at the end of the C wing near the Climate School.
More information on printers here: https://www.sciencespo.fr/usages-numeriques/fr/outils-equipements/materiels-et-equipements/imprimantes-et-copieurs.
Small supplies are freely accessible in the cabinet located near the copier A201. Vanina Lancelle regularly makes orders to replenish supplies according to need.

◊ Postal mail

A mailbox is available in the CRIS mail area for all postal correspondence. For outgoing mail: Use the "outgoing mail" mailbox tray. Use the supplied brown envelopes in the internal mailbox tray for mail intended for within Sciences Po.

- Outgoing mail for outside Sciences Po must bear the *name of the sending service* (the CRIS stamp is available for this) and the *name of the sender.*
- All your postal mail must be addressed to: Fondation Nationale des Sciences Politiques – CRIS – 1 place Saint-Thomas d'Aquin 75337 Paris Cedex 07

◊ Useful services and web pages

- Intranet: https://intranet.sciencespo.fr/bienvenue/
- Sciences Po Research website: https://www.sciencespo.fr/recherche/en/
- Helpdesk (computers, network, wifi...) : 01 45 49 77 99 or sos@sciencespo.fr
- Digital uses portal: https://www.sciencespo.fr/usages-numeriques/en/
- Library portal (27 SG and 1ST): https://www.sciencespo.fr/bibliotheque/en.html
- Online digital resources (databases, press, etc.): https://catalogue-bibliotheque.sciencespo.fr/nde/dbsearch?vid=33USPC_SPO:SPONDE&lang=en (accessible off campus with your Sciences Po login)
- Sciences Po events: http://www.sciencespo.fr/fr/evenements/
- Bookstore (5% discount upon presentation of your Sciences Po badge): http://www.librairie-sciencespo.fr/
- ***Conférence***, Sciences Po's platform for research and public debate: https://conference.sciencespo.fr/

◊ Regular contact points for doctoral students

Doctoral studies

- Doctoral agreement/contract: Sabrina Tonetti and Pauline Zinberg
- Education: Carine Bouteiller (EDR) for doctoral program in Sociology and Hadjila Nezlioui Serraz for doctoral program in Economics
- CRIS doctoral workshop: **Zachary Van Winkle** (CRIS)
- CRIS weekly seminar: **Bastian Betthaeuser** (CRIS)
- Training offered by the EDR: Julijana Filipovic Lecherf (EDR)
- Support for the *Comité de suivi individuel* (individual PhD thesis monitoring committee); doctoral studies support: **Linda Amrani**

CRIS life

- Scientific policy, mediation: **Carlo Barone**
- Representatives of doctoral candidates on the laboratory council: **Marta de la Torre Carrera** and **Camille Voisin**
- HR, travel/mission orders, financing, invitations, prevention/security aspects: **Linda Amrani**
- Transport/accommodation reservations, refunds, room reservations: **Sylvie Lesur**
- Communications / Publications / Open access / HAL / DMP: **Bernard Corminboeuf**
- Statistical analyses of data / Graphs, maps / Databases / R code: **Yannick Savina**
- Data Mangament and Survey analysis: **Manon Pradère**
- Supplies, logistical assistance, ID badges, event catering: **Vanina Lancelle**

Teaching at Sciences Po

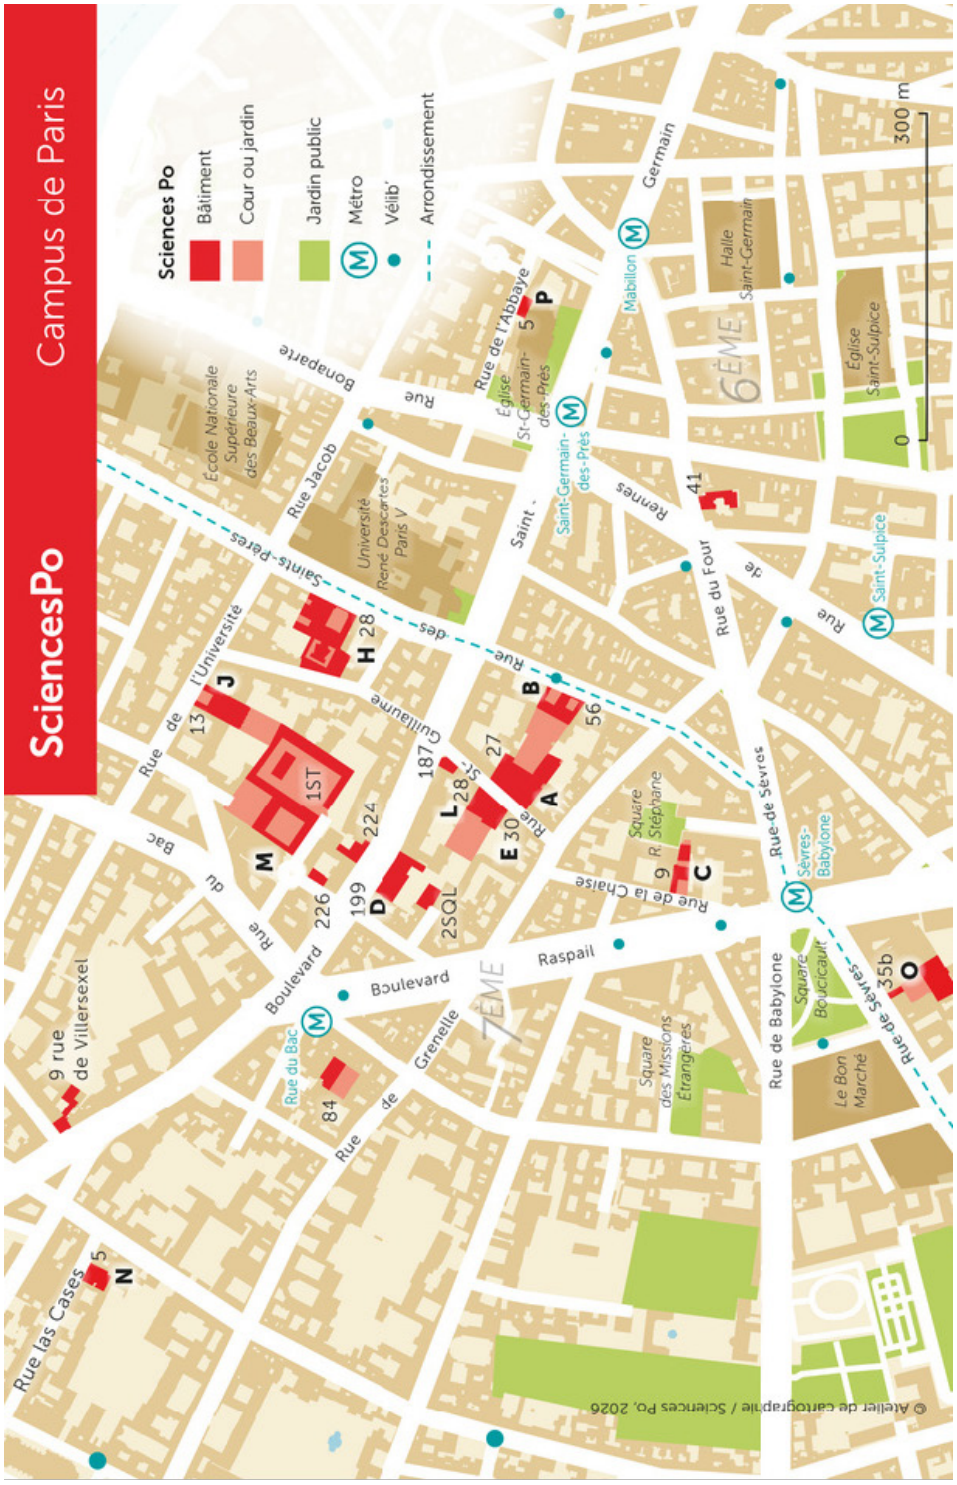

- Teaching (payment, GAPEC):
Pauline Zinberg (HR) and Sylvie Herlicq (teaching department)

◊ Location / Map

CRIS is located at 1 place Saint-Thomas-d'Aquin 75007 Paris, métro Rue du bac (line 12).
Alternative access via 13 rue de l'Université, métro Saint-Germain des Prés (line 4).

4 main campuses in Paris: 1 Saint-Thomas, 27 Saint Guillaume, 13 Université, 28 Saint-Pères and also 9, rue de la Chaise, 199 Bd St-Germain (LIEPP), 84 rue de Grenelle.
