Director
City Environment and Natural Resources Office (CENRO)
Office of the City Mayor
Pasig City

Conference Synthesis

Urban Laboratory Thematic Presentations:

Discussions and exchange between French and Filipino counterparts

January 20, Saturday, 9:00 am to 12:00 nn
Faber Hall 101

The main goal of the joint urban laboratory is to familiarize both the French and Filipino researchers with the challenge of city governance in a context of rapid urban sprawl, densification and increasingly visible threats brought by climate change related events and proliferation of systemic risks. This is a research collaboration between Ateneo de Manila University and Philippine Higher Education Institutions and Sciences Po Paris with support from the Commission on Higher Education (CHED).
