Major Academic Recognitions

In the anglophone academic culture, monograph publications are most frequently published as hardback copies only, certainly by top-line academic publishing houses. It is a particular honour and rare achievement to have such volumes eventually published as paperback volumes. Please note that all my five single-author monographs have been published by the top-line academic publishing house of Oxford University Press. Apart from my most recent book, published in the Spring of 2020, all my monographs have since been published as paperbacks and are currently available as both hardback and paperback copies. In the case of my very first single-author monograph, my 1996 hardback on *European Socialists Respond to Fascism*, then published by Oxford University Press in New York, the rights to this volume have most recently been transferred to Oxford University Press in Oxford (GB) and, a quarter century after its first publication, a paperback version has been issued on 19 July 2020.
