Scholarship Conditions and Requirements

Multiple scholarships will be awarded on a competitive basis in 2019-2020 to the best candidates based on their academic record and their project at Sciences Po.

In principle the scholarship goes towards covering tuition fees at Sciences Po.

Each recipient is awarded up to 10 000 Euros per year (ie. 20 000 Euros for two years of study).

The scholarship is offered for the entire length of study at Sciences Po on condition of sufficient academic performance (top 50% of the class). Therefore, students must show sufficient academic performance over the course of the first year. Students who do not meet this requirement will have their scholarship withdrawn in the second year.

The scholarship is dependent on the awardees completing their course of study at Sciences Po. A change in master program will lead to the withdrawal of the scholarship.

Please note that the scholarship is offered for students beginning their studies in August 2019 and may not be deferred.
