SPRING 2021

At the forefront of global affairs education, the **Paris School of International Affairs** (PSIA) is the only school of international affairs in France, and amongst the largest and most diverse in the world.

We are proud of the difference that our School has made over the past decade in training our students to understand, navigate and engage with the complexities and changes of our world and, thereby, in shaping them to be future global actors.

As we celebrate the success of PSIA and our graduates over our first ten years, we also seek to put PSIA in the best possible position as we start our second decade. To this extent, a new degree structure was introduced for all PSIA Master's programs starting in September 2020. It will enable students to achieve greater mastery of their degree specialisations and concentrations

and, thereby, further strengthen their education experience.

This brochure consolidates the complete PSIA course offer for the 2020/21 academic year, by our seven core Master Programs and by our 18 Regional and Thematic concentrations.

Our innovative curriculum continues to excel at bridging the gap between theory and practice. In my experience, this is ideal for future leaders who aim to thrive as innovative and responsible actors of a challenging global world.

The rigorous commitment and engagement of our faculty, staff and students are key to PSIA's success. I am grateful to all of them for their remarkable efforts.

**Enrico Letta**

# ABOUT PSIA

# Shaping global actors for a more secure world.

At Sciences Po's **Paris School of International Affairs** (PSIA), our goal is to train and shape global actors to understand and respond to the complexities of our world.

Since 2010, PSIA has continued Sciences Po's century-long tradition of cultivating the minds of leading government officials, diplomats, and key international stakeholders.

As we mark PSIA's 10<sup>th</sup> anniversary in 2020, we celebrate three main achievements:

- We are **ranked in the top 2** universities globally for international studies ;
- We attract truly outstanding students from **more than 110 countries** ;
- We have become **one of the largest schools** of International Affairs in the world

## At the forefront of global affairs education

With 70% of our 400 courses offered in English, students may take a full course of study in English. PSIA classes are taught by **world-renowned professors and leading practitioners**. The result is a versatile mix of current scholarship and innovative operational training founded in best practice.

PSIA students have frequent opportunity to challenge world leaders and engage with global policy through our extensive series of events, notably at our flagship Youth and Leaders Summit.

By the end of their two-years with us, PSIA graduates are well positioned to **pursue high-profile careers**. Our graduates work across the globe, in governments, NGOs and the private sector. They become political advisors, public servants, analysts, researchers, diplomats, consultants, entrepreneurs and innovators.

At PSIA, our students learn to understand, navigate and engage with a complex world. Together, we work towards **making the world a better, more secure place**.

- **7 MASTER'S PROGRAMS**
- **14 DUAL DEGREES**
- **18 CONCENTRATIONS**

## Customize your professional profile

PSIA offers **a choice of 7 master's programs** in the most salient fields of international affairs:

Environmental Policy • Human Rights and Humanitarian Action • International Development • International Economic Policy • International Energy • International Public Management • International Security

Students can pursue **a two-year Master's** in any of these fields in one of three ways:

- Over two years at PSIA;
- As part of a joint program in Journalism and International Affairs with the School of Journalism at Sciences Po;
- As part of a dual degree program with one of PSIA's university partners:

**International:** Bocconi University • Columbia University • Freie Universität • Georgetown Law • King's College London • London School of Economics • MGIMO • Peking University • University of Saint-Gallen • Stockholm School of Economics

**National:** AgroParisTech • ISAE-Supaero • Sorbonne Université • Saint-Cyr Coëtquidan

PSIA also offers **a one-year Master's** in Advanced Global Studies, covering the same seven fields, for candidates with a degree and at least five years of professional work experience.

PSIA students select **one or two concentrations**, depending on their program, which enable them to chart their very own career path:

**Regional:** Africa • Asia • Europe • Middle East • Russia • The Americas

**Thematic:** Agriculture • Diplomacy • Environment and Sustainability • Global Economy • Global Health • Global Risks • Human Rights • Intelligence • Media and Writing • Methods • Migrations • Project Management
