PSIA CURRICULUM
FALL 2019
SPRING 2020
At the forefront of global affairs education, the Paris School of International Affairs (PSIA) is the only school of international affairs in France, and amongst the largest in the world.

PSIA offers future global actors an innovative and comprehensive grounding in international affairs. It does so though a curriculum which interlaces conceptual foundations and current scholarship with the most up-to-date practices. World-renowned professors and leading practitioners teach over 400 courses annually in the most salient fields of international affairs. Whilst the vast majority of courses are taught in English, about a quarter of them are taught in French.

This brochure consolidates the complete PSIA course offer for the 2019/20 academic year, by our seven core Master Programs and by our 20 Regional and Thematic concentrations.

PSIA excels at bridging the gap between theory and practice. In my experience, this is ideal for future leaders who aim to thrive as innovative and responsible actors of a challenging global world.

The rigorous commitment and engagement of our faculty, staff and students are key to PSIA’s success. I am grateful to all of them for their remarkable efforts.

Enrico Letta
Dean,
February 2020

### PSIA OTHER COURSES ............................................... p. 62
Shaping global actors for a more secure world.

At Sciences Po’s Paris School of International Affairs (PSIA), our goal is to train and shape global actors to understand and respond to the complexities of our world.

Since 2010, PSIA has continued Sciences Po’s century-long tradition of cultivating the minds of leading government officials, diplomats, and key international stakeholders.

As we prepare for PSIA’s 10th anniversary in 2020, we celebrate three main achievements:

- We are ranked in the top 3 universities globally for international studies;
- We attract truly outstanding students from more than 110 countries;
- We have become one of the largest schools of International Affairs in the world.

At the forefront of global affairs education

With 70% of our 400 courses offered in English, students may take a full course of study in English. PSIA classes are taught by world-renowned professors and leading practitioners. The result is a versatile mix of current scholarship and innovative operational training founded in best practice.

PSIA students have frequent opportunity to challenge world leaders and engage with global policy through our extensive series of events, notably at our flagship Youth and Leaders Summit.

By the end of their two-years with us, PSIA graduates are well positioned to pursue high-profile careers. Our graduates work across the globe, in governments, NGOs and the private sector. They become political advisors, public servants, analysts, researchers, diplomats, consultants, entrepreneurs and innovators.

At PSIA, our students learn to understand, navigate and engage with a complex world. Together, we work towards making the world a better, more secure place.
7 MASTER’S PROGRAMS
14 DUAL DEGREES
20 CONCENTRATIONS

Customize your professional profile

PSIA offers a choice of 7 master’s programs in the most salient fields of international affairs:
Environmental Policy • Human Rights and Humanitarian Action • International Development • International Economic Policy • International Energy • International Public Management • International Security

Students can pursue a two-year Master’s in any of these fields in one of three ways:
• Over two years at PSIA;
• As part of a joint program in Journalism and International Affairs with the School of Journalism at Sciences Po;
• As part of a dual degree program with one of PSIA’s university partners:
  International: Bocconi University • Columbia University • Freie Universität • Georgetown Law • King’s College London • London School of Economics • MGIMO • Peking University • University of Saint-Gallen • Stockholm School of Economics
  National: AgroParisTech • ISAE-Supaero • Sorbonne Université • Saint-Cyr Coëtquidan

PSIA also offers a one-year Master’s in Advanced Global Studies, covering the same seven fields, for candidates with a degree and at least five years of professional work experience.

PSIA students select one or two concentrations, depending on their program, which enable them to chart their very own career path:
Regional: Africa • China and East Asia • Europe • Middle East • Russia • South and Central Asia • The Americas
Thematic: Agriculture • Diplomacy • Environment • Global Economy • Global Health • Global Risks • Human Rights • Intelligence • International Energy • Media and Writing • Methods • Migrations • Project Management
