PARIS SCHOOL OF INTERNATIONAL AFFAIRS

CURRICULUM 2025

PSIA CURRICULUM

SPRING 2025

FALL 2025

At the forefront of global affairs education, the **Paris School of International Affairs (PSIA)** of Sciences Po is the second ranked school of international affairs in the world. We are proud of the significant impact the School has had in equipping students to understand and navigate the complexities of our global landscape over the past decade. Throughout their time at PSIA, students enhance their knowledge and skills, whilst gathering relevant experience to become catalysts for change in the transition towards more secure, equitable, and sustainable societies. Upon graduation, they are ready to become responsible leaders in international affairs.

With English as the language of study, our innovative curriculum seeks to bridge the gap between theory and practice by interlacing conceptual foundations and current scholarship with the most up-to-date operational training and best practices. World-renowned professors and leading practitioners teach over 400 specialised courses annually in the most salient fields of international affairs. Our Master's programs and wide range of thematic and regional concentrations allow students to personalise their academic curriculum and chart their very own career paths.

This document presents the complete PSIA course offer for the 2025 calendar year, responding to the evolving dynamics and new arising challenges of global affairs.

The international community faces profound challenges amidst escalating conflicts, the accelerating climate crisis, the impact of emerging technologies such as generative AI, systematic violations of human rights and growing barriers to the international economy and global trade. I am proud of the contribution that the School plays in nurturing the next generation of leaders. I am deeply grateful to our esteemed faculty, dedicated staff, and exceptional students, whose persistent commitment and remarkable efforts are what ensure the success of PSIA.

Arancha González Laya

Dean of the Paris School of International Affairs

About **PSIA**

Shaping global actors for more secure, just and sustainable societies

At Sciences Po's **Paris School of International Affairs (PSIA)**, our goal is to attract the best and brightest students from across the planet and to instill these future leaders with the knowledge, skills and experience to understand, navigate, engage and shape the complexities of our ever-evolving world.

Since 2010, PSIA has continued Sciences Po's century-long tradition of providing world-class graduate education and professional training in the most salient fields of international affairs.

Our central location in Paris, our position at the heart of Europe and with English as the main language of study help us to attract a diverse community of students representing more than 120 nationalities, who join us with a variety of academic backgrounds.

At the forefront of global affairs education

PSIA is a world leader in international affairs and contributes significantly to Sciences Po's continuous placement amongst the top 4 institutions globally for "politics and international studies" over the past decade (and #1 in Europe since 2020) in the QS ranking.

World-renowned professors and leading practitioners teach specialist courses which balance conceptual foundations and current scholarship with the most up-to-date operational training and best practices.

PSIA students have regular opportunities to challenge and engage with world leaders and scholars through our extensive series of public events, including our annual flagship Youth & Leaders Summit.

By the end of their two years with us, PSIA graduates are well-positioned to **pursue high-profile careers**. Our graduates work across the globe and in all sectors. They become political advisors, public servants, analysts, researchers, diplomats, consultants and stakeholders in international affairs.

At PSIA, we prepare our students to become agents of change in **the transition for more secure, just and sustainable societies**.

8 MASTER'S PROGRAMS

14 DUAL DEGREES

17 CONCENTRATIONS

PSIA offers a **choice of 8 master's programs** in the most salient fields of international affairs:

Environmental Policy • Human Rights and Humanitarian Action • International Development • International Economic Policy • International Energy Transitions • International Governance and Diplomacy • International Security • Technology and Global Affairs

Students can pursue a **two-year Master's** in any of these fields in one of three ways:

- Over two years at PSIA;
- As part of a joint program in Journalism and International Affairs with the School of Journalism at Sciences Po;
- As part of a dual degree program with one of PSIA's university partners:

International: *Bocconi University • Columbia University • Freie Universität • Georgetown Law • IE University • King's College London • London School of Economics • Peking University • University of Saint-Gallen • University of Cape Town • Stockholm School of Economics*

National: *AgroParisTech • ISAE-Supaero • Sorbonne Université • Saint-Cyr Coëtquidan*

Customize your professional profile

PSIA also offers a **one-year Master's** in Advanced Global Studies, covering the same seven fields, for candidates with a degree and at least five years of professional work experience.

PSIA students select **one or two concentrations** (or minors), depending on their program, which enable them to chart their very own career path:

Regional: *Africa • Asia • Europe • Middle East • The Americas*

Thematic: *Agriculture and Food • Diplomacy • Environment and Sustainability • Gender Studies • Global Economy • Global Health • Global Risks • Human Rights • Intelligence • Methods • Migration • Project Management*

PSIA

Standard Course of Study

The PSIA degree structure is organized as follow:

Course offered in each Master specialisation become progressively more advanced semester by semester;

Students are expected to devote five hours to independent, in-depth study in their chosen courses for each hour they will spend in the classroom. In other words, students should spend 125 hours working outside the classroom for each 24 hours spent in the classroom.

Some 80% of students follow a two-year program at PSIA.

INTERNATIONAL *SECURITY*

This Master in International Security is designed to equip students with the knowledge for a nuanced understanding and analysis of contemporary issues in the international security domain. This encompasses a wide range of 21st century topics, such as shifts in the global landscape, new forms of crises and conflicts, transnational terrorism, nuclear proliferation, cyberwarfare, etc. The curriculum comprehensively addresses the multifaceted nature of security

at a progressive pace allowing for students to acquire and refine their analytical and critical skills. With faculty drawn from both academia and the field, including the military sector, students are constantly challenged to better understand security issues on both the international and regional stage. The diverse expertise of the faculty enhances the depth and practical application of the knowledge acquired during the program.

Simulation Workshop: the Iranian Nuclear Issue, **Clément THERME**

Weapons of Mass Destruction Counter-Proliferation: Interdiction, Deterrence & Defense, **Fouad EL KHATIB**

Principles of Wartime Diplomacy, **Dmytro KULEBA**

INTERNATIONAL GOVERNANCE AND DIPLOMACY

The Master in International Governance and Diplomacy bridges the disciplines of political science, international law, economics, management and diplomacy to prepare students for impactful careers in multilateral organizations, foreign ministries, non-governmental organizations, consultancies and global policy think tanks. The program provides the analytical depth and practical tools to navigate complex governance challenges across the globe. This program teaches diplomacy as a method by high-level practitioners in the field (ie: diplomats, directors of international or governmental organizations and world-renowned academics) and practical components are emphasized in all courses. Through

case studies, simulations, and expert-led seminars, students learn to craft policy, mediate conflict, and lead with integrity in international arenas. Students are encouraged to engage critically with the material through the lens of their chosen career theme, building a coherent trajectory that aligns with their professional goals. The Master in International Governance & Diplomacy program incorporates Diplomacy as the first concentration for all students. Due to the fact that this program integrates the study of diplomacy alongside international governance (i.e. policy analysis, economics, international law and management), students will only select one thematic or regional concentrations (excluding diplomacy).

Jonas Gahr Støre (alumni) with students

FALL 2025

MASTER IN INTERNATIONAL GOVERNANCE AND DIPLOMACY

MASTER 1

Blocks 1 to 3 are mandatory - Students must select one course from each block

BLOCK 1_ POLICY ANALYSIS FOR INTERNATIONAL GOVERNANCE I_

New Challenges and Perspectives in Foreign Policies in the Middle East (New), **Mohamed-Ali ADRAOUI**

INTERNATIONAL *ECONOMIC POLICY*

The Master in International Economic Policy equips students with the analytical and practical tools to understand and shape international economic policy. Trade wars, sanctions, sovereign debt, global inequalities, and the green transition: the program focuses on the most pressing issues that challenge economic policymakers at the international and regional levels. At the heart of the program is an extremely solid foundation

in the theory of international economics, which is linked to more practical aspects in courses that bring in expert policymakers. The curriculum also includes courses that teach students the technical skills that they require in their future careers. Candidates for this program are expected to have successfully completed at least undergraduate level courses in microeconomics and in macroeconomics.

FALL 2025

INTERNATIONAL *DEVELOPMENT*

The Master in International Development provides an innovative training centered on a renewed approach to sustainable economic growth and political practices. Students in the program acquire analytical and practical skills to effectively implement the next generation of development policies and projects. Within the program, students delve into the exploration of cooperation, connections and partnerships among various

actors, sectors and mechanisms that contribute to development. A particular emphasis is placed on the acquisition of essential foundations on economics and finance and skills in policy design, project management, monitoring and evaluation, including quantitative evaluation. This comprehensive approach equips graduates with the expertise needed to navigate the many challenges of international development in the 21st century.

HUMAN RIGHTS *AND HUMANITARIAN* *ACTION*

The Master in Human Rights and Humanitarian Action presents a unique blend of core social science theoretical and practical approaches that respond to the challenges, dilemmas and stakes of human rights and humanitarian action. The primary aim of teaching is to give students the necessary tools for a robust analytical contextualisation providing both

depth and breadth in the fields. The program encompasses essential courses covering international law, global/regional institutional frameworks and actors, gender and human security. Additionally, students hone their strategic skills for their future career that include advocacy, negotiation, or project management and evaluation.

ENVIRONMENTAL POLICY

The Master in Environmental Policy is a comprehensive program preparing the next generation of policymakers, project managers, analysts and auditors with the skills needed to address global environmental challenges. This program provides rigorous training covering scientific, legal, economic, political and social aspects of climate change, biodiversity, water management

and energy transitions. It responds to an urgent need worldwide for critical understanding of the challenges and opportunities in strategic decision-making regarding environmental and natural resources issues. To this end, the Master provides students with the necessary understanding of policy tools and processes while developing their literacy in earth sciences and environmental issues.

Questions to Tobias Lindner

FALL 2025

MASTER IN ENVIRONMENTAL POLICY

Blocks 1 and 2 are mandatory - Students must select one course from each block

BLOCK 1_ ENVIRONMENTAL ECONOMICS_

Environmental Economics: Policy, Damages and Distribution (Lecture), **Katrin MILLOCK**

Environmental and Resource Economics (Lecture), **Louis Gaëtan GIRAUDET**

Applied Environmental and Ecological Macroeconomics, **Meriem HAMDİ-CHERIF**,

Financing Water for Sustainable Development. Recent Trends and Ways Forward, **Benjamin GESTIN, Xavier LEFLAIVE**
A Practical Approach to Financing Environmental Projects, **Pierre DECHAMPS**
Finance and Nature, **Camille MACLET**
Urban Climate Finance: Initial Notions and Practice of Local Climate Investment, **Priscilla NEGREIROS, Emmanuelle NASSE BRIDIER**
The Future of Climate Diplomacy: Empowering the Developing World Through Climate Finance, **Thierry WATRIN**

PSIA Graduation Ceremony

INTERNATIONAL *ENERGY TRANSITIONS*

The Master in International Energy Transitions responds to the increasing worldwide demand for energy expertise through a cutting-edge academic curriculum. The program provides students with a comprehensive understanding of energy issues, across disciplines and energy sources. The governance of the energy transition in the context of global warming, universal access to modern energy, and security of supply are key challenges for each country and the international

community. The program encompasses economic, political, technological, legal, distributional and international relations dimensions. The programme emphasizes students' active participation. Many of the faculty come from the main European energy think tanks, and from the international energy industry or the consultancies. Each year, the Master hosts the Paris launch of the International Energy Agency's World Energy Outlook.

FALL 2025

MASTER IN INTERNATIONAL ENERGY TRANSITIONS

Block 1 and 2 are mandatory

BLOCK 1_ DILEMMAS OF ENERGY TRANSITIONS_

Dilemmas of Energy Transitions, Michal MEIDAN

BLOCK 2_ ENERGY ECONOMICS_

Energy Economics, Daniel CAMOS

ENHANCED MASTER OPTION_

Carbon Neutrality by Mid-Century : How to Get There?, Manfred HAFNER

Blocks 5 and 6 are compulsory - Students must select one course from each block

BLOCK 5_ ENERGY GEOPOLITICS, FINANCE AND THE LAW_

Energy Landscape Analysis, **Thierry BROS**

International & Comparative Petroleum Law and Contracts in the Energy Transition,
Carlos BELLORIN

BLOCK 6_ TOOLS AND TECHNOLOGIES FOR ENERGY TRANSITIONS_

System Integration of Renewable Electricity Sources, **Arthur HENRIOT**, **Elsa MERCKEL**

The Role of Hydropower in Clean Energy Transitions, **Heymi BAHAR**

Electricity Market Design, **Timon DUBBELING**

Industrial Energy Transitions, **Paolo NATALI**, **Marco BRUN**

TECHNOLOGY AND *GLOBAL AFFAIRS*

The Master degree in Technology and Global Affairs, launched jointly as a dual degree between the Paris School of International Affairs and IE's School of Politics, Economics and Global Affairs (IE-SPEGA), takes a multidisciplinary approach to prepare individuals to navigate skillfully the complex intersection of rapid technological change and the transformation of the global geopolitical landscape. It equips students with the knowledge and expertise to become leaders in

the public and private sector. The program's curriculum uniquely weaves three key dimensions: the impact of technology on geopolitical and security developments; the economic and business transformations driven by technology; and the technology driven evolutions of citizenship and fundamental rights. Issues related to the governance and regulation of technology will be treated as a fourth, cross-cutting dimension.

FALL 2025

MASTER IN TECHNOLOGY AND GLOBAL AFFAIRS

Pre-semester bootcamp is mandatory

INTENSIVE PRE-SEMESTER BOOTCAMP_

Intensive Pre-Semester Bootcamp, **Sebastien CORNIGLION**

MASTER IN ADVANCED GLOBAL STUDIES

The one-year Master in Advanced Global Studies (MAGS) is designed for early/mid-career professionals with a minimum of five years of full-time work experience after completing their Bachelor's degree. It offers a unique opportunity to deepen expertise in one of the core fields of international affairs through an accelerated academic experience.

Students in the MAGS program can choose from one of PSIA's eight Master tracks and one of the 17 concentrations. They will attend courses alongside students

enrolled in two-year program, while also benefiting from exclusive components tailored to their professional profile.

These include:

Capstone project • Winter bootcamp
Summer session • Career development workshops

This program is ideal for professionals seeking to enhance their global perspective, expand their network, and accelerate their career in international affairs.

Master in Advanced Global Studies
