Shaping global actors for a more secure world.

One of the most prestigious schools in Europe, Sciences Po has cultivated the minds of leading government officials, diplomats, and key international stakeholders for over a century.

Consolidating this tradition of excellence, the Paris School of International Affairs provides graduate students with groundbreaking insights into global affairs.

A bilingual professional school (English-French)
Attracting the best and brightest students worldwide, PSIA has a population of 1500 students representing over 100 countries. With 70% of courses taught in English, students may take a full course of study in English, and become multilingual while in Paris.

At the forefront of global affairs education
The PSIA curriculum combines conceptual foundations and current scholarship, with the most up-to-date operational training and best practices. World-renewed professors and leading practitioners teach over 400 courses annually in the most salient fields of international affairs. In addition students frequently interact with world leaders and scholars through PSIA's extensive series of public events, notably during the annual Youth & Leaders Summit.

With the support of academic advisors, graduates complete the two-year program, which typically includes a full semester internship, and are thus well-positioned to pursue high-profile careers, joining the vast network of Sciences Po alumni across continents. PSIA's career office works extensively with students to find the right merger of intellectual capital, individual objectives, and professional achievement.
